

# ISO 45001: 2018 Occupational Health & Safety Management System Awareness Training

ISO 45001:2018 has been designed to act as a single standard to promote better occupational health and safety (OH&S) management around the world. It incorporates new concepts on OH&S management, helping to strengthen both leadership, management of risk and worker involvement.

Upon successful completion of the course, participants will acquire an in-depth knowledge of the structure and requirements of ISO 45001.

## Course outline

- Interpret the International Organization for Standardisation (ISO) 45001:2018 Management System Standard Requirements.
- Determine the risks and opportunities and plan actions to address risks and opportunities
- Support operational requirements of the OH&S Management System
- Review of the OH&S Management System Performance
- Assess the Company's existing system and identify its needs for further improvement

## Who should attend

This course is designed and aimed for individuals responsible for managing an OH&S management system based on OHSAS 18001:2007 preparing to migrate to ISO 45001:2018. This is also meant for individuals who own or manage processes in an organisation and is looking to embark ISO 45001: 2018 standard.
